Subjects :- full stack

Roll no :- 63

CUID - CU240251668

Date - 1 Sept

Section - "B"

Class Test - 1

Answer 1 :- `import { useState } from "react";`

`export default function Counter() {`

`const [c, setC] = useState(0);`

`return (`

`<>`

`<h2> {c} </h2>`

`<button onClick={ () => setC(c+1)} > + </button>`

`<button onClick={ () => setC(c-1)} disabled={ {c==0} } > - </button>`

`<button onClick={ () => setC(0)} > Reset </button>`

`</>`

`}`

Answer 2 :- `import { useState } from "react";`

`export default function Todo() {`

`const [t, setT] = useState("");`

`const [list, setList] = useState([]);`

`return (`

`<>`

`<input value={t} onChange={e}>`

`<button onClick={ () => setList([...list, t]) } > Add </button>`

`{list.map((x, i) => {`

`<div key={i}>`

`{x}`

`<button onClick={ () => setList(list.filter((_, j) => j !== i)) } > X </button>`

`</div>`

`})}`

`</>`

`}`

Answer 3 :- `import { useState } from "react";`
`export default function Login() {`
 `const [login, setLogin] = useState(false);`
 `return login ? ("B")`
 `<>`
 `<h3> Welcome! </h3>`
 `<button on click={e} => setLogin(false) > Logout </button>`
 `};`
 `<button on click={e} => setLogin(true) > Login </button>`
`}`

Answer 4 :- `import { useState } from "react";`
`export default function Search() {`
 `const names = ["Utsav", "Sanskari", "Sagar"];`
 `const [s, setS] = useState("");`
 `const f = names.filter(n => n.toLowerCase().includes(s.toLowerCase()));`
 `return (`
 `<>`
 `<input on change={e} => setS(e.target.value) />`
 `& f.length ? f.map((n, i) => <p key={i} > {n} </p> )`
 `: <p> No results found </p>`
 `)`
`}`

Answer 5 :-
